

**As members of AFGE Council 238, we are personally invested in ensuring fair working conditions at the Environmental Protection Agency. Our collective efforts not only benefit us as employees but also contribute to a safer, cleaner environment for all. In our current contract effort, we are entering mediation with EPA and then will put our demands before the Federal Service Impasse Panel.**

**In this last phase of our contract push, we stand united in our fight for better working conditions at the EPA and a healthier environment for everyone!**
